## Thanks to Riley Classes

The Class of '43 decided to 'call it quits' after their 60th reunion. *Elfrieda Petzke Kuespert* is writing to inform all classmates of the committee's decision and suggests alternatives for future gatherings. *Ed Jordanich, Class of '45* and his committee is doing the same. These classes have faithfully held reunions which says a lot about the 'Spirit of Riley High School' and the care classmates have for one another. Finally committees of both classes decided to donate the remaining class funds to the Alumni Association. Just another sign of the *Wildcat Legacy*.

## ASSOCIATION OFFERS GIFT ANNUITIES

Want to invest your money with interest rates that you won't likely find elsewhere? Want to collect an interest check each quarter of the year for your lifetime? Have you been thinking about making a donation, but can't take the final step? Maybe a gift annuity is what you are looking for. The Alumni Association's rates are equal or better than most others and you may qualify for tax breaks immediately and in the future. Contact us for complete information. Rates are based on the age of the annuitant. You can help yourself and we can shape the annuity contribution to suit your interests in helping young people to achieve their educational goals.

## TCU Matching Contributions

The Teachers Credit Union Foundation continues to help the Alumni Association on its mission of assisting students with their education and will match dollars donated to the Association by TCU members up to a specified amount. TCU wishes to help those programs their members support so please let us know if you are a TCU member *if and when* you make a contribution to the Alumni Association. Every little bit helps and now will be matched. We can do it.....our philosophy is 'getting many..... to give a little'.

## Chairman of the Board Commentary

(Joseph S. Fragomeni, Sr., Adams '42)

We started this Association in 1989. We had great expectations because we knew that many good people attended our high schools and we believed most...not all...of you would participate in a small way to achieve our mission. Our philosophy then and now is *to get many to participate a little*. Though many of you have indicated you are pleased with the achievements of the Association, the organization has not been as productive as we had hoped. We have done a great deal for many young people and we believe we have helped to enrich our community. But, we can do so much more if everyone would 'pitch in' and help out. True to our word we have not solicited you for funds but we do need to establish a solid financial base if we are to continue to provide financial assistance to young people. I will appreciate your comments regarding my thoughts.

### Riley Class of '40 Celebrates 65th Reunion

In the tradition of South Bend schools the 1940 Riley January and June classes held a 65th reunion in August. Committee members were Robert Battenberg, Charles Hartman, Josephine Jambrick Peiffer, Freda Korkhouse Collier, Irvin Morse, Mary Jean Snyder Heftie, Patricia Roberts Downs, Martha Tabaczynski Grover, D'Ann Swanson Bayman, J.D. Cary, Jack Swantz and Doris Stokes Brother. The classes decided this was the last formal reunion and donated their funds in excess of \$650 to the Alumni Association to be used exclusively for Riley High School needs. A notable item in their memory book is the class lost eleven young men in WWII. One class! Thank you class of '40—you understand the term —legacy!

### Graduate Profile- Jack Swantz

Jack Swantz graduated from Riley High School in 1940 where he starred in basketball and track.. He entered Purdue University where he lettered in both basketball and baseball while earning a mechanical engineering degree graduating in 1944. That year he married Mary Lou Heiermann, **Central '40**. Jack remembers math teacher Miss Bernice Clark as one of his favorites. He was president of the Student Council and active in Hi-Y, Drama Club and Band; that's a 'pretty full plate' and the reason the yearbook editor called him a **Four Star Fellow!** Jack worked in the aircraft industry and was a factory rep for most of his career. He was active with his class reunions and presently resides at 5729 Aberdeen Court in South Bend, IN 46614. He would like to hear from old friends and can be reached at his home or on the web at [jswantz@michiana.org](mailto:jswantz@michiana.org).

### New Board Members Elected

Barbara Murphy and Jerry Donaldson were elected to the Alumni Association Board of Directors at the board's annual meeting held in September. Jerry is a grad of Adams '79 and Clark College '83 in Atlanta. He has been the Executive Director of Renew, Inc. in South Bend for more than 13 years. He, too, is very active in the community serving on many volunteer boards and even finding time to officiate elementary basketball games. ## Happy Holidays

### RETIRED TEACHER STAYING IN TOUCH

Former Marshall, Madison, Brown and John Adams science teacher, John Stahly has been researching his family ancestry for more than 40 years and has been to Germany several times. While in Germany he visited Montessori Schools in Koln and the Gymnasium in Munich. This sparked an interest in the successes of his many former students. He was not surprised, but most impressed with the number who continued their education beyond high school and college and the many who are now corporate and professional leaders. He asks that anyone with information about his students to contact him at 71346 State Road 19, Nappanee, IN 46550.

### SUPERINTENDENT RAYMOND RETIRING

Dr. Joan Raymond, Superintendent of the South Bend Community Schools has announced her retirement at the end of the 2005-06 school year. Her career in public education spans nearly 50 years and she has been a superintendent of schools in Yonkers, N.Y., Chicago, Houston and South Bend. She has many major accomplishments during her five years here in curriculum, services, organization and physical facilities. Her support of the Alumni Association is sincerely appreciated and we wish her a long and healthy retirement.

### HELP NEEDED FOR 2006 GOLF TOURNAMENT

The **13th Annual Superintendent's Scholarship Golf Tournament** will be at Elbel GC in '06 due to the reconstruction work at Erskine Course. We can use your help to secure or recommend potential hole sponsors so we can, again, make the tournament a financial success by supplementing our scholarship endowment fund. Sponsorships are \$125 and we post a sign and identify sponsors on our flyers and web site. Remind donors their sponsorships are to a 501 (c)(3) Indiana Not-For-Profit corporation— usually helps with their taxes. Call us! Please!

**Joanne (Jo) Inglefield Schaller, Adams '49** recently 'reupped' for two years and reports she is living in Knoxville, Tennessee; **Chuck Castle, Central '36** wrote to inquire about the winter Alumnews (we publish & mail in December) and to mention the bowling success of his buddy **Joe Koloszar, Riley '36**. Joe won the Indiana Bowling Championship for seniors recently and we all think that's pretty good. Lets see...class of '36....that puts him close to the 85 'marker'...nice going Joe. (see if we can get school picture from yearbooks of Chuck and Joe). **Ray W. Coahran, Riley '53** and **Joe E. Robinson, Riley '43** recently contacted the Alumni office; Ray lives in Midway, Arizona and Joe in Miami Lakes, Florida....who said Wildcat grads didn't know how to find shelter in bad weather??? **Sue Robertson Bowman, Adams '52** stopped in the office to renew her membership. She lives on the south side of South Bend and stays active. South Siders will relate to a number of 'Bowman landmarks'.

# I Remember Pearl Harbor

By Joseph E. Goffeney  
Central High School Alum  
Class of 1939

I was a twenty year old sailor serving aboard the USS Case moored in Pearl Harbor on December 7, 1941. Our squadron had been operating in Hawaiian waters in late November and entered Pearl Harbor on November 28th to commence a three week period of upkeep and minor overhaul.

On the morning of December 7th I had the cold iron watch. A cold iron watch is set when the ship's boilers are cold and steam, electrical power and other necessary services are received from another source. In our case that source was the USS Whitney, a destroyer tender. During our overhaul, our electrical generators were disassembled, the condensers were open and in the fire-rooms the boilers were opened up for cleaning. Parts of our main battery, the 5" guns, were on the tender for repair. In short, the Case was unable to get underway and almost unable to defend itself when the attack by the Japanese began. Furthermore, on the afternoon of the 6th the senior officers went ashore and the ship was left in charge of a reserve Lt. Junior Grade and a reserve Ensign. The commanding officer was not able to make it back to the ship until after the first wave of the attack.

Our first indication that something was amiss was when we heard a .50 caliber machine gun on the destroyer alongside start to fire. The first comment was "somebody is going to get their %\*& in a sling for firing a machine gun in the harbor". A few seconds later there was another burst of machine gun fire followed by the crack of a 5" gun firing. I climbed out of the engine room hatch onto the main deck and as I looked aft a torpedo bomber flew past so low that I could see the pilot looking down at us. The big red circle on the side of the fuselage left no doubt as to what was happening. I ran to man my battle station as ammunition hoist operator in the forward magazine. Just as I arrived the electrical power from the tender failed and the entire ship plunged into darkness. After power was restored we started putting back together what we spent a week taking apart. I remember shaking so badly that it took two hands to get a wrench on a bolt. The ship was finally able to get underway at about 3:30PM. We

patrolled the harbor all night, going around Ford Island, passing the Arizona burning, past the West Virginia still shooting flames, past the Oklahoma bottom side up and then the Utah. We patrolled for about a week and then joined a destroyer screen escorting to the west coast the three battleships that were still able to get underway. This is how the war began for the USS Case. Three of the nine destroyers in our squadron were not as lucky as the Case as they did not survive the initial attack that day in December 1941. (edited by SBAA to fit available space)
